

AGGREGATE DUMP TRUCK DRIVER

Job Description:

Drive a 10-wheel dump truck to transport aggregates from a quarry to multiple crushing plants on the same property, while ensuring compliance with DOT standards and mine safety regulations.

Responsibilities:

- Operate a 10-wheel dump truck safely and efficiently.
- Perform and document daily vehicle inspections.
- Perform daily truck maintenance.
- Comply with mine safety regulations, DOT standards and driving laws.
- Communicate effectively with management and other team members.

Requirements:

- Valid NH CDL B drivers' license.
- Contribute to a TEAM oriented mindset.
- Ability to complete and document daily vehicle inspection.
- Perform simple daily truck maintenance.
- Strong knowledge of safety procedures, regulations and best practice related to heavy truck operations.
- Work a 5-day work week.
- Work in environments year-round with exposure to varying weather conditions.
- Contribute to a TEAM oriented mindset.
- Good communication skills to collaborate with team members and supervisors.
- Willingness to work flexible hours.
- Prior experience driving a dump truck is preferred.
- Training in mine safety is a plus.
- High school diploma or equivalent education is preferred, but not mandatory.

Compensation based on skillset and experience
